SUMMARY

A highly motivated and driven individual with a degree in Computer Science and fluent in both English and Spanish looking to pursue a career in software development. Specializes in the MERN stack (**Mongodb, Express, React, Node**) willing and able to learn new technologies fast and works great with others.

SKILLS

Languages

- Proficient in: JavaScript, HTML5, CSS3, jQuery, Node.js, Express, Pug/Jade, Sass, Bootstrap, Material Design, Git (GitHub & BitBucket), NPM, Responsive Design.
- Familiar with: Gulp, React, Bash.

Software

- Database: MongoDB.
 - Platform: Microsoft Windows, Mac OSX, GNU Linux.
-

EXPERIENCE

Full Stack Developer

2015 - Current

Various Clients & personal projects

- I specialize on the JavaScript stack for all aspects of development using Mongo, Express, React.js, Nodejs and I have worked on both front end and backend from micro services to building APIs from scratch.
- For the most recent client, **Nuvm Networks Inc.**, responsibilities included requirements gathering, analysis and design for their Customer Web Portal that included D3/C3 and their corporate website on HubSpot.

Knowledge Manager (Volunteer)

2015 - Current

Free Code Camp

- As the person in charge of the extra material to teach other web development students, I took an existing database and greatly increased with new specialized documents, guides, and set of rules that led to a successful increase of student's knowledge and ability to contribute to open source projects, along with creating and managing a team of volunteers and open mentorship for other students.

IT Specialist

2010 - 2016

New York City Department of Education

- Over the years I worked from an Intern position to becoming a registered independent vendor with the NYC department of education. As an IT specialist I always worked with my clients, staff and students alike to solve hard problems related to education with new technologies, network included all while providing training and ensuring the equipment's were all functioning and accounted for.
-

EDUCATION

CUNY Lehman College

Class of 2013

Bronx, New York

- Bachelors of Science, Computer Science

Free Code Camp
