Vinyl Album Art:

An app for album art and vinyl lovers, for enthusiasts who love spending time discovering new music. Vinyl displays random album art by genre to give the user a similar feeling of discovery.

Build: JavaScript, jQuery, HTML5, CSS3

Think Tank Books:

Think Tank is an app for those who would love to save a collection of their favorite tech related books. Now you are able to make a running list of those beloved selections.

Build: Handelbars.js, Bookshelf.js JavaScript (ES6), KnexJS, CSS3

Vue Inbox:

I created a dynamic email inbox using the fairly new and popular framework VueJS. This web application is built with the latest technologies along with being fully CRUD.

Build: VueJS, BootstrapVue, JavaScript (ES6), HTML5, CSS3

Raspberry Plnt:

A mobile keg monitoring application coupled with a Raspberry pi single board computer. With just a click keg levels, temperature, and whats on tap is available.

Build: React-Native, NativeBase jQuery, KnexJS, Raspberry pi
