PERSONAL PROJECTS

- **ChoralCentral:** A web app for sharing sheet music, midis, and youtube video links, powered by Django. [Github repo](#)
- **VoidCoin:** Basic blockchain implementation, with algorithm in Python and powered by Django. [Github repo](#)
- **FunnShopp:** Enterprise Resource Planning (ERP) web app, powered by Django. [Github repo](#)
- **Python-git:** Python library for automating boring git tasks, by controlling git-cmd.exe with python's subprocess module.
- **Hack nairaland:** Python tools designed to scrap user-contributed content on [Nairaland](#), the most popular forum in the Nigerian e-space. This project is sort of an API for the site.
- **Currency Analyzer:** A hybrid desktop and mobile app that eases counting of money and any items with fixed denominations. Meteor backend and React frontend. [Android](#), [Github repo](#)
- **My Reads:** A bookshelf built with React. [Github repo](#)
- **Url Shortener:** A url shortening service with automatic redirects. [Github repo](#)
